2. Place the Remote Extender where desired and attach the USB 3.0 device(s) to the Remote Extender.

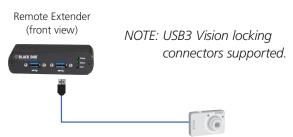

Figure QS-5. Connect the USB device to the Remote Extender.

About Black Box

3. Power the Remote Extender with the included 24 VDC adapter and tighten the locking ring.

Figure QS-6. Power the remote extender.

4. Directly connect the Local and Remote Extenders with a duplex LC-LC crossover multimode fiber cable (not included).

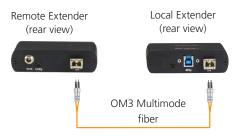

Figure QS-7. Connect local and remote extenders.

- NOTE: The maximum distance between local and remote extenders is 328 feet (100 m), although storage devices may only achieve 165 feet (50 m).
- 5. Connect the Local Extender to a computer with the included USB cable.

Figure QS-8. Connect the local extender to a computer.

NOTE: Power adapter is not required at the local extender for operation.

NOTE: Product does not support USB 1.1 and 2.0 devices.

Black Box provides an extensive range of networking and infrastructure products. You'll find everything from cabinets and racks and power and surge protection products to media converters and Ethernet switches all supported by free, live 24/7 Tech support available in 60 seconds or less.
